DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- In claim 3, lines 1-2, please remove **claim 1 or**

Allowable Subject Matter

Claims 2-4, 8, 42, 45 & 47 allowed.

The following is an examiner's statement of reasons for allowance: Patentability has been found because the prior art fails to suggest or show the combination as set forth in the independent claims 2 & 42 including the specific apparatus for game play. This requirement is not seen or fairly suggested by the prior art of record.

The closest prior art of reference was White et al. (847). White discloses A Wagering Game Employing Dice.

White's teachings fail to anticipate or render obvious applicant's invention because it fails to disclose the necessary apparatus for game play.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
